

# Ovente Electric Buffet Server with Warming Tray, Three 1.5QT Warming Pans, Stainless Steel, Adjustable Temperature Control, 200W, Silver (FW173S)

## Key Features

**SUPPLIES THE RIGHT HEAT** – The warming tray is powered by a 200W heating element that keeps the food hot without drying out or burning the bottom. You can also use the tray as a standalone warmer, and you can place dishes in heat-resistant glass, ceramic, or metal kitchenware.

**COMPACT BUT SPACIOUS** – This buffet server might look compact, but the three warming pans can hold 1.5qt of food each! This makes it ideal for hosting small parties and holiday dinners.

**HEAVY DUTY** – Both the warming tray and the pans are made of durable stainless steel. They will not easily bend or warp even at extremely high temperatures or continuous use.

**PRECISE HEAT SETTINGS** – This buffet server has a temperature control knob that lets you choose your desired heat setting. Simply turn the knob to choose the appropriate heat for the food.

**LIMITED 1-YEAR WARRANTY** – All Ovente products have a one (1) year warranty period from the date of purchase from an authorized retailer. This warranty only covers defects in workmanship and materials. To activate its 1-year warranty, register your product here: <https://ovente.com/register>. Please note that you have to provide proof of purchase to request for repair or replacement.
