

# Ovente Electric Kettle, with Beep, 1.7L, 1100W, BPA-Free, 5 Temperature Control Settings & Keep Warm Function, Auto Shut-Off (KS88 Series)

TEMPERATURE CONTROL

## Key Features

**LIGHTNING FAST** – This Ovente electric kettle operates on 1100W (120V) of power, quickly bringing a 1.7L of water to a rolling boil in minutes. Simply pour the water in the carafe, plug the kettle in, and wait for the beep sound that signals your water is ready!

**VARIABLE HEAT FOR EVERY BREW** – Some tea leaves and coffee grounds taste bitter when immersed in a cup of boiling water. Get the water temperature that's right for every cup of hot beverage using the 5 preset settings (140, 158, 176, 194, 212 °F) of Ovente's cordless electric kettle!

**KEEP WARM SETTING** – The electric kettle features a Keep Warm setting: Once the water drops to 185 °F, the electric kettle will reboil the water to keep it in 212 °F for 2 hours.

**FIRE-SAFE** – This BPA-free electric kettle features an auto shut-off and boil-dry protection: The kettle shuts off on its own when the pot has reached its boiling temperature and then turns off the heating element when there is no water in the kettle.

**LIMITED 2-YEAR WARRANTY** – All Ovente kettles have a two- (2) year warranty period from the date of purchase from an authorized retailer. This warranty only covers defects in workmanship and materials. Please note that you have to provide proof of purchase to request for repair or replacement.
