

Ovente Electric Sandwich Maker, Non-Stick Plates, Anti-Skid Feet, Indicator Lights, Stainless Steel, 750W, Black (GPS401B)

Key Features

GOLDEN SANDWICHES IN A FLASH – Yummy sandwiches don't have to take too much time to make! The Ovente GPS401 Electric Sandwich Maker Series runs on a fast-heating 750W (120V) motor, and its plates offer even heating and toasting. Once turned on, it only takes 3 minutes for it to reach the cooking temperature! It has indicator lights that let you know when the appliance is turned on, or when it's preheated and ready for cooking.

NO-FUSS CLEANING – Its plates are finished with a non-stick coating, making it ultra-easy to clean! To remove the grease and food residues on the plates of the sandwich grill, turn the appliance off and wipe the plates with a kitchen sponge or a cloth dampened in warm, soapy water.

CREATE SANDWICHES AND MORE – This sandwich maker can do more than just make sandwiches, making it an appliance you'll reach for everyday use. You can also use it for cooking sunny-side ups, omelets, pancakes and waffles, or French toasts!

MAXIMUM SAFETY – This sandwich press grill has anti-skid feet that offer extra stability and grip on smooth surfaces, and its body and handle are made of heat-resistant stainless-steel. It can handle heat and corrosion pretty well! With its light and portable build, you can bring it outdoors.

1-YEAR WARRANTY – At Ovente, we aim to make your life easier by producing top-quality housewares, designed with you in mind. We have pledged to uphold all our offerings to the highest standards, and we back all our products with one (1) year warranty from the date of purchase from an authorized retailer. This warranty covers defects in workmanship and materials.
