

Ovente Electric Single Coil Burner, 1000W (120V), 6-Inch Plate, Adjustable Temperature Control, Metal Housing, Indicator Light, Non-Slip Rubber Feet, Black (BGC101B)

Key Features

MAKES COOKING A STRESS-FREE TASK – The Ovente Electric Single Coil Burner BGC101 Series is equipped with a 6" hot plate with durable stainless steel heating tube powered by 1000W (120V) of power. Unlike other burners, this one heats up quickly and cooks food evenly without any hot or cold spots.

QUALITY YOU CAN COUNT ON – Its body is made of a durable metal housing that is highly resistant to high temperatures and fire. It won't easily warp or bend even after years of usage.

KEEPS THE DESIRED HEAT STEADY – This electric coil burner has an indicator light that illuminates once the burner reaches the desired temperature. Just turn the control knob and choose the appropriate temperature setting for your food, and the burner will maintain the temperature.

PERFECT FOR THOSE TIGHT ON SPACE – The 6" coil burner is just the right size for studios, apartments, RVs, and homes with limited kitchen space. It is compact and light. You can even bring it to weekend camping trips!

1-YEAR WARRANTY – At Ovente, we aim to make your life easier by producing top-quality housewares, designed with you in mind. We have pledged to uphold all our offerings to the highest standards, and we back all our products with one (1) year warranty from the date of purchase from an authorized retailer. This warranty covers defects in workmanship and materials.
