

Ovente Glass Electric Tea Kettle 1.8 Liter BPA Free Cordless Body, 1500W Instant Hot Water Boiler Heater with Stainless Steel Infuser and Automatic Shut Off for Coffee, Tea, Chocolate, Silver KG661S

Key Features

Quick Boiling – Operates on 1500W (120V) of power, this BPA-free glass kettle boils a full 1.8 liter of water in minutes. Equipped with a smart-touch screen temperature control panel so you can set your desired temperature setting.

Made for Brewing – Make every cup of coffee and tea richer and more flavorful. Use the temperature control panel to choose between its 6 preset selections (160°F, 170°F, 180°F, 190°F, 200°F, and 212°F) so you get the right temperature for your beverage. Comes with a removable stainless-steel tea infuser to conveniently brew tea in your kettle.

Smart Keep-Warm Function – Have your boiled water heated up longer. Simply press Keep Warm, the temperature on the dial flickers briefly, and the LED lights inside the kettle will flash. The keep-warm function works for up to 2 hours.

Safe and Durable – No need to worry about leaving your kettle. Its Auto-shut off function lets it shut off on its own when the pot reaches boiling point and its Boil-dry protection automatically switches off the heating element when there is no water in the kettle. Also includes a convenient non-slip 360° rotary base and a comfortable stay-cool handle for extra security.

US-Based Customer Service – Buy with confidence! Ovente warranties that the product shall be free from defects in material and workmanship under normal use and conditions, for 2 year from the original purchase date.
