

Ovente Hot Air Popcorn Popper Maker 16-Cup Capacity with Measuring Cup, No Oil Needed (PM11T)

Key Features

POP IT FAST! – Make a quick and easy snack for you, your family, or your guest. Just add your corn kernels into the chamber, close the inlet using the lid, click the on button, and watch as those kernels pop and bounce in your bowl in minutes!

TURBINE DESIGN – Cooks your popcorn evenly with its hot air circulation inside the Aluminum Heat Chamber, providing a 95% popping rate. No oil needed! A perfect healthy snack for your kids.

EASY TO CLEAN – No oil = no more deep cleaning! Wipe the cup and cover with a damp cloth and let it dry then make delicious popcorn again! Its elegant and compact design will suit anywhere you set it to, from your kitchen to your room.

MAKE YOUR OWN FLAVOR – Have it simply original, with salt, or your favorite flavorings like cheese, garlic, chocolate syrup, caramel – the list goes on!

GUARANTEED WARRANTY – Buy with confidence! Ovente warrants that the product shall be free from defects in material and workmanship under normal use and conditions, for 1 year from the original purchase date.
