Ovente Ionic Tourmaline Handheld Hair Dryer White (X2210W)

Key Features

FAST, POWERFUL, PROFESSIONAL – Features a powerful 1875-Watt motor that not only quickly dries your hair completely inside and out, but leaves it shiny, smooth, healthy, and more manageable.

BUILT-IN CERAMIC COATING – Creates non-damaging far-infrared heat that penetrates the hair shaft, preserving your hair's natural moisture and luster while gently drying hair for added heat protection.

IONIC TECHNOLOGY – Helps break down water molecules and reduces the hair's surface tension, leaving you with smooth, frizz-free, and shiny hair.

TOURMALINE TECHNOLOGY – Emits negative ions and infrared heat while sealing the cuticle so that heat is gentler on the hair while making it smooth and shiny. It also helps hair better withstand higher temperatures during styling.

LIGHTWEIGHT, ERGONOMIC, VERSATILE – It weighs at 1.5 lbs, and features an ergonomic finger grip, along with 2 speeds and 3 heat settings for versatility with hair types. Also includes a cool-shot button for setting styles with ease.
