

Ovente Portable Travel Car Immersion Heater, 12V (CH112 Series)

Key Features

EASY TO USE – Simply clip it onto your mug to submerge, plug it in, unplug when it reaches your desired temperature, wait 15 seconds, then remove from liquid.

FAST – Powered by 150-Watts, it heats up liquids almost instantly!

VERSATILE – Great for heating up water, tea, coffee, soup broths, and much more. Only use on thin liquids that have the consistency of water.

PORTABLE – It's super lightweight (2.4 oz) making it perfect for travel, dorm, home, and office use.

SPACE-SAVER – It's so compact that you could carry it in your pocket. Great for maximizing space in small areas.
