

# Ovente Tabletop Vanity Mirror with Dimmable Lights 9.5 Inches (MLT45 Series)

Nickel Brushed

Polished Chrome

## Key Features

**COMPREHENSIVE** – This dual-sided 360° swivel design luxury mirror features 1x-5x/10x magnification. 1x for a great view of your entire face all at once, and 5x/10x for precision, because every detail counts (9.5” diameter).

**SLEEK, ELEGANT, STYLISH** – Its beautifully sleek design creates a luxurious focal point while brightening and opening up small spaces. Comes in 2 elegant finishes: Nickel Brushed and Polished Chrome.

**DIMMABLE LED LIGHTS** – Last longer and use less electricity than all other types of lighting, helping you save money. Its cool-tone lights are also dimmable by turning the knob on the base, giving you full control.

**OPTIONALLY CORDLESS** – This mirror is operated by either 4 AA batteries (not included) or USB adapter, while also being conveniently portable and cordless if you wish. The 2-Port USB adapter even allows you to charge your phone while using the mirror.

**DISTORTION-FREE** – Look about 4 in. away from the 10x magnification mirror for a distortion-free view. This works best for putting makeup on (eyeliner, mascara) and grooming eyebrows.
