

Ovente Tabletop Vanity Mirror with Lights 6 Inches (MMT06 Series)

Key Features

COMPREHENSIVE – This dual-sided 360° swivel design luxury mirror features 1x5x magnification. 1x for a great view of your entire face all at once, and 5x for precision, because every detail counts (6" diameter)

SLEEK, MODERN, STYLISH – Creates a luxurious focal point while brightening and opening up small spaces. Comes in three eye-catching finishes: baby pink, white, and polished chrome.

LED LIGHTS – Last longer and use less electricity than all other types of lighting, helping you save money

OPTIONALLY CORDLESS – This mirror is battery (3x AA, not included) or micro USB/Android cable-operated, lightweight, and conveniently portable. It also features non-slip rubber feet to prevent slippage.

DISTORTION-FREE – Look about 4 in. away from the 5x magnification mirror for a distortion-free view. This works best for putting makeup on (eyeliner, mascara) and grooming eyebrows
