

Ovente Tabletop Vanity Mirror with Lights 7 Inches (MCT70 Series)

Key Features

COMPREHENSIVE – This dual-sided 360° swivel design luxury mirror features 1x7x magnification. 1x for a great view of your entire face all at once, and 7x for precision, because every detail counts (7" diameter)

SLEEK, MODERN, STYLISH – Creates a luxurious focal point while brightening and opening up small spaces. Comes in three eye-catching finishes: polished chrome, nickel brushed, and oil-rubbed bronze.

COOL-TONE LED LIGHTS – Last longer and use less electricity than all other types of conventional lighting, helping you save money. You also never have to replace the light bulbs, they will last the entire lifetime of the mirror.

CORDLESS – This mirror is battery operated (4x AAA, not included) so you can enjoy a clear, clean, and cord-free vanity space. Depending on the battery brand, new batteries can last for up to 8 hours.

DISTORTION-FREE – Look about 4 inches away from the 7x magnification mirror for a distortion-free view. This works best for putting makeup on (eyeliner, mascara) and grooming eyebrows
