

Ovente Wireless Speaker, 2000 mAh, TWS Pairing, IPX6 Waterproof, ≥20 Hours of Playtime, Black (ZA1200B)

WATERPROOF

Its IPX6 rating makes it resistant to moderate pressure from splashing water, so you can enjoy listening even on rainy days.

RICH STEREO SOUND

High-fidelity sound. Balanced bass and treble.

SHORT CHARGING TIME

2-3 hours of charging powers it for up to 20 hours of continuous use.

Key Features

Your movie night and jamming buddy Good music wouldn't sound as good with a second-rate speaker. Treble that's too thin, dominating base, and instrument sounds that drown with the rest of the tracks. What separates a good speaker from mediocre ones?

Overall balance and separation of frequencies – blast your favorite rock songs by the pool or pump the volume high for your rnbs even under drizzles of rain using the Ovente wireless speaker ZA1200 Series. With this True wireless stereo speaker, you can play your favorite artists the way theyre meant to be heard: with rich sound range, balanced treble, thunderous bass, and crystal-clear quality.

Key Features ≥20 hours of play time : The charging time approximately takes up to 2–3 hours, but with its 2000 mAh battery capacity, once fully charged, you can use the wireless speaker for 20 hours of playtime at 2/3 volume on a full charged.

TWS pairing capable: it enables pairing of two wireless speakers to play music synchronously. **IPX6 waterproof:** This wireless speaker is rated with an IPX6 rating. Hence, it can handle low to moderate pressures, shocks, water splashes, and rain.
