IMPORTANT SAFEGUARDS

There are some critical safety precautions to follow in order to operate the Electric Blanket. As with all electrical appliances, there's a possibility of danger such as injury, overheating or fire if the product is not used correctly. Read the following instructions before using the Electric Blanket.

- Before connecting the Electric Blanket, check if the voltage indicated on the bottom of the unit corresponds to the local main voltage before you connect the appliance.
- DO NOT plug or operate any appliance with a damaged cord. If the cord is damaged or if the Electric Blanket has been malfunctioned in any manner, contact your service provider immediately.
- To protect against electrical hazards, DO NOT immerse cord, plugs and the appliance in water or any liquid.
- DO NOT let cord touch hot surfaces.
- Regularly check the main cord if it's still in good and safe condition.
- To avoid circuit overload, do not operate another high voltage appliance on the same circuit.
- Do not use pins, needles or any sharp object as they may damage the electric wiring.
- Do not tuck the supply cord in any furniture. All portions of the Electric Blanket should be visible at all times.
- Do not use the Electric Blanket with an infant, an immobile person or anyone who's insensitive to heat such as a person with poor blood circulation.
- Close supervision is necessary when any appliance is used by or near children.
- Turn the switch OFF before connecting or disconnecting plug from the power outlet.
- The device is not intended to be operated with an external timer or separate remote control system.
- Do not use on pull-out bed or fold-up bed.
- Never use the Electric Blanket with an air mattress.
- The Electric Blanket should never be folded or fumbled when in use as this may result in overheating.
- Never place hot objects on the Electric Blanket.
- Switch should never be covered on the blanket when in use.
- Do not use the Electric Blanket with furniture subject to movement, such as rocking chairs, recliners or chairs with wheels.
- Do not use outdoors or for purposes other than intended use.
